OBJECTIVE

Seeking a position where I can utilize and further my skills, particularly my troubleshooting and maintenance skills. I have worn many hats, including training, rapid prototyping, customer service, technical support, and machine maintenance/repair.

WORK EXPERIENCE

TechShop inc.

March 2015 — September 2016

Dream Consultant

- Performed preventative and active maintenance on many different machines.
- Assisted members troubleshoot projects using software and machines.
- Kept shop with 5+ year equipment looking like they day it was purchased.
- Assisted improving equipment over factory design.
- Worked mainly in Pittsburgh/Detroit Location, bust also San Jose and DC.

Chuck E. Cheese

August 2014 — March 2015

Technical Manager

- Maintained machines that range from video games to kitchen equipment.
- Managed game-techs in order to maintain up time and cleanliness of games.
- Maintained appearance of games and show by updating and upgrading.
- Kept a budget and inventory of parts on hand.

Skylite Networks

January 2014 — July 2014

IT

- Maintained servers and network to almost 100% uptime.
- Provided customer service to IPTV customers
- Assisted in selling and shipping networking cables.

Bentek Solar

July 2013 — December 2013

Panel Assembly

- Assembled cables and panels according to customers specifications.
- Assisted in production with solar assembly.
- Assisted in warehouse for receiving and keeping inventory.

Control Analytics

January 2013 — June 2013

Panel Assembler

- Assembled cables and panels according to customers specifications.
- Inspected systems and preformed testing before customer delivery.
- Trained with Service technicians on repair of systems.

EDUCATION

Mechatronics

September 2008 — June 2012

Central Westmoreland CTC

This was a Vocational Program taken during high school. This program involved

combining mechanics and electronics focusing on robotics. I learned point to point wiring, electronics troubleshooting, repair of systems, and machine maintenance. This is the program where I joined F.I.R.S.T. robotics competition, where I was team leader for 3 years and still mentor the team.

INTERESTS

Electronics, Animatronics, Robotics, Automotive repair and modifications, Making things
